

Roundcorner input
600
(drawn circle
underneath from
autocad Radius 600)

Roundcorner input
600
(drawn circle
underneath with
autocad radius
323,7424
the result from the
autocad circle which
intersects at both
distances 600 and
has a radius of
323,7424 (see 2D
drawing) and is thus
tangent does not
match with the
roundcorner when i
input 600
